**Thai:** Conversational

**Spanish:** Basic knowledge

**Japanese:** Learning

## CERTIFICATIONS

**TOEIC:** 910 / 990

**VOLTAIRE  
CERTIFICATE:** 840 / 1000

**OPQUAST:** 870 / 1000

## HOBBIES

- Music
- Cooking / Baking
- Manga / Anime
- DIY

# Manida VILAY

## Front-end Developer | React | TypeScript

Former med student, turned into a frontend developer, I am currently looking for a full-time job as a **frontend developer**, especially in React/Next and TypeScript.

## EXPERIENCES

### Front-end software engineer - Virtuo Technologies

**december 2022 - march 2024**

- Co-managed the development of the Virtuo website, an online car rental platform
- Jointly oversaw graphic redesigns to enhance user experience and site aesthetics
- Developed and integrated new features and technical improvements using **React**, **Next.js**, and **TypeScript**
- Migrated existing **JavaScript** components to **TypeScript**, enhancing code maintainability
- Executed **SEO** strategies, including the creation and optimization of the sitemap, resulting in improved search engine rankings
- Worked on the migration of the website's routing architecture from the Page Router to the App Router in Next.js, enhancing performance and scalability

### Front-end developer - Freelance

**september 2021 - december 2022**

- Led the redesign of a website for a company connecting startups and large enterprises, using **native JavaScript**, **Vue.js**, and **Bootstrap**
- Contributed to the development of a real estate agency website using **WordPress** and **Elementor**
- Self-taught and applied **Vue.js**, **Nuxt.js**, **React**, and **TypeScript** on various projects, demonstrating adaptability and continuous learning

### Front-end developer - Apprenticeship at Opsone

**september 2019 - august 2021**

- Designed and developed the institutional website for the Nicolas Hulot Foundation using **native JavaScript** and **WordPress**
- Led the graphic and technical redesign of a customizable books e-commerce website using **native JavaScript**, **Magento**, and **Symfony**
- Performed web integration tasks using **HTML/CSS (Sass, BEM methodology)** and **JavaScript**, ensuring high-quality and maintainable code

### Web integrator - Internship at Opsone

**march 2019 - september 2019**

- Developed dynamic web pages using **HTML5**, **CSS3**, **Sass**, and **jQuery**
- Ensured retro-compatibility across various web projects to maintain functionality on older browsers
- Optimized SEO, accessibility, and performance using Lighthouse analysis
- Collaborated with the Customer Success Manager (CSM), and clients to design and implement graphic models

## PROJECTS

### Portfolio - React 18 / Next 14 / TypeScript (<https://manidavilay.com>)

- React project with **static data** describing myself, showing my projects (with links) and my downloadable resume using app router
- Creation of the graphic design from scratch using **Midjourney**, **Procreate**, and **Figma**

### Dead By Daylight - Nuxt ([deadbydaylight.manidavilay.com](https://deadbydaylight.manidavilay.com))

- First Nuxt project using **Vuetify** for the design, showcasing informations about Dead By Daylight's characters (video game) with **different categories**, and a **search bar**, using **static data**

### Geonames API - React 18 / TypeScript (<https://geonamesapi.manidavilay.com/>)

- First React and TypeScript project **calling geonames API** to display countries informations
- Challenging project to understand the basics of **React** and **TypeScript**
- Using **Material UI** for the design and **Nivo Pie** to display charts

## EDUCATION

### Master of web development

ECV Digital Paris

2019 - 2021

### Bachelor of project management

ECV Digital Paris

2018 - 2019

### Bachelor of medical science

Paris-Est-Créteil (Paris XII) Université de Médecine
